Abstrak:

Menjamurnya banyak varian kegiatan bisnis berbasis syari'ah akhir-akhir ini, seperti seperti Perbankan Syari'ah, BMT, KJSKS, Pariwisata syariah, Hotel Syariah, Asuransi syariah, membutuhkan lengkapnya kesempurnaan aturan tentang kegiatan ekonomi syari'ah di Indonesia dengan segala bentuknya. Masih terbatasnya peraturan tentang segala varian bisnis berbasis syari'ah di Indonesia, sehingga perlu ada terobosan agar kegiatan bisnis berbasis syari'a tersebut agar benar-benar sesuai dengan nilai-nilai islam (syari'ah) yang sesungguhnya. Jika tidak demikian bisnis berlabel syari'ah di Indonesia akan hanya sekedar eksis di ranah simbolis tidak menyentuh terhadap substansi nilai-nilai ekonomi syari'ah yang sebenarnya. Begitu juga dalam proses sertifikasi halal pada suatu produk mencakup pendaftaran, pengujian dan pemeriksaan, penetapan serta sertifikasi, yang akan dilakukan oleh BPJHP, proses tersebut dilakukan oleh MUI dan tahap pengujian dan pemeriksaan diserahkan pada lembaga pemeriksa halal (LPH) dan Lembaga Pengkajian Pangan, Obat-Obatan, dan Kosmetika (LPPOM) MUI. Perlu ada lembaga yang akan menjadi saluran apabila terjadi sengketa baik melalui jalur non litigasi: Arbitrase, Mediasi dan melalui Pengadilan Agama dimana, Pengadilan Agama memiliki kompetensi absolut dalam penyelesaian sengketa bahkan dalam arbitrasepun perlu putusan pengadilan.

Abstract

The development of sharia-based business activity varieties lately, such as Sharia Banking, BMT, KJSKS, Sharia Tourism, Sharia Hotels, Syaria Insurance, requires a complete set of rules regarding the sharia economic activities in Indonesia in all it forms. The Regulation of all Sharia-based business varieties in Indonesia is still limited, thus it needs innovation to make those activities in accordance with the true Islamic(sharia) values. If it does not occur, sharia-labeled businesses in Indonesia will only exist in the symbolic realm, and it will not touch the substance of the true sharia economic values. Likewise in the halal certification process on a product, including registration, testing and inspection, determination and certification, which will be done by BPJHP, that process is carried out by Indonesian Ulama

Council (MUI), whereas the step of testing and inspection is given to the Halal Inspection Institution (LPH) and the Assesment Institute for Foods, Drugs, And Cosmetics (LPPOM), MUI. It is necessary to have agency which will become a channel in the event of dispute, either through non-litigation: Arbitration, Mediation or through Religious Courts which have absolute competence in dispute settlement, even in arbitration, it needs court decision.

Keywords: Halal Product, Sharia Economic Law, Halal Certification
