Catatan:

(1) Penyebutan nama-nama lokasi yang berulang-ulang baik di method maupun Results dan Discussion akan menyebabkan artikel ini kurang bisa menginternasional. Apalagi nama-nama narasumber juga selalu disebut (memangnya apa kehebatan mereka di kancah internasional?). Mengapa tidak dituliskan substansi temuan saja dengan tidak menonjolkan siapa yang berbicara (apalagi memakai kata "according to")?

(2) Result: cobalah diringkas substansi temuan sesuai dengan permasalahan (harusnya tujuan) di semua lokasi dalam bentuk tabel ringkasan sehingga mudah dipahami dan tidak terlalu berkepanjangan. Ambil dan ubahlah temuan-temuan dari tiap lembaga dan individu itu menjadi konsep-konsep yang substansial. Itulah temuan penelitian Anda: dan bukan kata-kata rujukan kepada narasumber.

(3) Penyajian results sebaiknya tidak seperti buku pelajaran dengan ditulis berurutan dengan nomor-nomor; ambil substansinya apa. Juga, bisakah itu ditabelkan saja?

(4) Ejaan harus diperhatikan. Misalnya, sebuah pernyataan diakhiri dengan titik dua (:), tetapi diikuti rincian dengan diawali huruf kapital: bukankah itu salah? Tolong semua dicermati lagi, termasuk penulisan daftar pustaka: misal mengapa hampir semua tidak diakhiri dengan titik (.)?

Hal-hal yang dikemukakan di atas perlu diperbaiki agar artikel dapat dimuat di jurnal ini. Saran ini mengikat, maka jika tidak diikuti artikel akan di-decline. Apalagi ini sudah revisi kesekian kalinya.

Catatan:

(1) Secara umum artikel sudah cukup baik, tetapi lingkup subjek penelitian terlalu sempit: hanya SATU SMP. Seandainya jumlah sekolah ditambah, katakan 3-5 sekolah atau bahkan lebih, hasil penelitian akan lebih memunyai dampak. Oleh karena itu, disarankan jumlah sekolah ditambah (ini saran mengikat).

(2) Urutan ranah di kurikulum sekarang: afektif, kognitif, psikomotorik (untuk revisi Tabel 1).

(3) Daftar pustaka: semua sumber pustaka artikel harus ditulis secara konsisten dan dilengkapi dengan DOI atau http.

Berdasarkan kondisi di atas, artikel ini masih perlu direvisi.

Reviewer A:

1. Title: The title is not in accordance with the research method. The word development is not followed by the right type of method, R & D

2. Introduction

a. Better if given evidence or data or cases, quantitative gratitude.

b. In the introduction also needs to be explained about environmental education. Is this the same as ecology ?, because this study researches the development of environmental education.

3. Method

a. The qualitative method of phenomenology is not in accordance with the research title. Development research should use the Research & Development method. There is an option to change the method or title. If you change the method with R & D, the results and discussion are certainly not appropriate. My advice, change the title by removing the word Development so that it becomes ENVIRONMENTAL CULTURED EDUCATION

AND ITS IMPLICATION ON THE STUDENT'S COMPETENCE

IN THE NATIONAL ADIWIYATA SCHOOL

b. Until here, it is still a theory. The research method in the article is not writing methodology, but directly applied. Who is the subject / data

b. Until here, it is still a theory. The research method in the article is not writing methodology, but directly applied. Who is the subject / data source, what are the instruments, how is the data obtained, how is the validity (validity and reliability) and the analysis.

4. Result and Discussion

Apparently, this description is not research data but like rational argumentation. Is it true? But there are also results and correct discussions.

5. Referensi

1. Masih terlalu banyak buku, hanya 4 jurnal.
2. Hendaknya diperkaya dengan jurnal internasional terindeks
3. Tambahkan acuan pada Cakrawala Pendidikan.

Reviewer B:

1. Fokus permasalahan yang diteliti tidak jelas: "Pengembangan Pendidikan Berbudaya" --- aspek apa yang menjadi fokus masalah?
2. Kata kunci sangat umum. Perlu dipilih kata atau istilah yang substantif dan berkaitan dengan hal penting dalam artikel.
3. Hasil penelitian belum disajikan dengan rinci dan jelas
4. Simpulan masih bersifat umum, belum menunjukkan hal spesifik dari penelitian ini
